I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

South Clatsop Parish Fire Protection District was created by the Clatsop Parish Police Jury as authorized by Louisiana Revised Statute 48:1493, on February 8, 1990. The district is governed by a five member board appointed by the police jury, the Village of Adrian, and by the board. Board members serve without benefit of compensation. The district is responsible for maintaining and operating fire stations and equipment and providing fire protection within the boundaries of the district.

A. REPORTING ENTITY

As the governing authority of the parish, for reporting purposes, the Clatsop Parish Police Jury is the financial reporting entity for Clatsop Parish. The financial reporting entity consists of (a) the primary government (police jury), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board (GASB) Statement No. 14 established criteria for determining which component units should be considered part of the Clatsop Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial responsibility. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the police jury to impose its will on that organization and/or

**SOUTH CLATSOP COUNTY PARISH
FIRE PROTECTION DISTRICT
Astoria, Louisiana
Notes to the Financial Statements (Continued)**

- b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the police jury.
2. Organizations for which the police jury does not appoint a voting majority but are fiscally dependent on the police jury.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the police jury created the district, appoints certain commissioners of the district, and has the ability to impose its will on the district, the district was determined to be a component unit of the Clatsop County Police Jury, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the district and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the Clatsop County financial reporting entity.

B. FUND ACCOUNTING

The district uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts that comprises its assets, liabilities, fund equity, resources, and expenditures. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities (general fund assets and general long-term debt) that are not recorded in the "funds" because they do not directly affect net expendable available financial resources. They are concerned only with the measurement of financial position, not with the measurement of results of operations.

Funds are classified into three categories: governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate "fund types". Governmental funds are used to account for a government's general activities, where the focus of attention is on

FIRE PROTECTION DISTRICT
Arkens, Louisiana**

Notes to the Financial Statements (Continued)

the providing of services to the public as opposed to proprietary funds where the focus of attention is on measuring the cost of providing services to the public or other agencies through service charges or user fees. Fiduciary funds are used to account for assets held for others. The district's current operations require the use of only governmental funds (General Fund). The district's sources of revenue consist of an ad valorem tax and interest on demand deposits. General operating expenditures are paid from this fund.

C. FIXED ASSETS AND LONG-TERM DEBT

General fixed assets are not capitalized in the fund used to acquire or construct them. Instead, capital acquisition and construction are reflected as expenditures (capital outlay) in the governmental fund and the related assets are reported in the general fixed assets account group. The cost of normal maintenance and repairs that do not add to the value of fixed assets or materially extend their useful lives are not capitalized. All general fixed assets are valued at historical cost. No depreciation has been provided on general fixed assets.

DA. BASIS OF ACCOUNTING

The financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements for these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for reporting all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The district uses the following practices in recognizing and reporting revenues and expenditures.

**SOUTH CLAIRBORNE PARISH
FIRE PROTECTION DISTRICT
Arkham, Louisiana
Notes to the Financial Statements (Continued)**

Revenues

Ad valorem taxes are budgeted in the year the taxes are due and payable. Ad valorem taxes are assessed on a calendar year basis and attach as an enforceable lien and become due and payable on the date the tax rolls are filed with the recorder of mortgages. Louisiana Revised Statute 47:193 requires that the tax roll be filed on or before November 15 of each year. Ad valorem taxes become delinquent if not paid by December 31. The taxes are normally collected in December of the current year, and January and February of the subsequent year.

Interest income on demand deposits is recorded in the month the interest is earned and credited to the bank account.

Substantially all other revenues are recorded when received by the district.

Based on the above criteria, ad valorem taxes have been treated as susceptible to accrual.

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

E. BUDGET PRACTICES

A preliminary budget for the coming year is prepared by the board prior to December 31 of each year during the board's regular December meeting. The proposed budget is prepared on the cash basis of accounting. The budget is established and controlled by the board of commissioners at the object level of expenditure. Appropriations lapse at year-end and must be reappropriated for the following year to be expended. All changes in the budget must be approved by the board of commissioners. Encumbrance accounting is not used by the district.

Notes to the Financial Statements (Continued)

The budget comparison statements included in the accompanying financial statements for the year ended December 31, 2003, include the original adopted budget. The following reconciles the excess (deficiency) of revenues over expenditures as shown on budget comparison Statement C (budget basis) to the same amounts shown on Statement B (GAAP basis):

Excess (deficiency) of revenues over expenditures (budgetary basis)	\$58,862
Adjustments:	
Reserve/fund	1,299
Payables	<u>1,718</u>
Excess (deficiency) of revenues over expenditures (GAAP basis)	<u>\$60,859</u>

F. CASH

Under state law, the district may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The district may invest its certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At December 31, 2003, the district has cash (bank balances) totaling \$159,807.

These deposits are stated at cost, which approximates market. Under state law, these deposits, or the resulting bank balances, must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. Deposit balances (bank balances) at December 31, 2003, total \$162,023 and are fully secured by federal deposit insurance and pledged securities as follows:

Bank balances	<u>\$162,023</u>
Federal deposit insurance	\$200,000
Pledged securities (not collateralized)	<u>183,027</u>
Total	<u>\$365,050</u>

**G. TOTAL COLUMN ON COMBINED
BALANCE SHEET**

The total column on the combined balance sheet is captioned Memorandum Only (overview) to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position in conformity with U.S. generally accepted accounting principles. Neither is such data comparable to a consolidation.

II. RISK MANAGEMENT

The fire district is exposed to various risk of loss related to: fire; theft of, damage to, and destruction of assets; and injuries to employees. To handle such risk of loss, the police jury maintains coverage on the fire district. This policy covers general liability, property, employee liability, and public officials liability. No claims were paid on any of the policies during the past three years which exceeded the policies' coverage amounts. There were no significant reductions in insurance coverage during the year ended December 31, 2004.

2. LAYED TAXES

The district is authorized to levy a maximum tax of 10.00 mills on property within the boundaries of the district for maintenance and operation of the district. The district levied 11.34 mills for 2003. The difference between authorized and levied millage is the result of assessments of the taxable property required by Article 7, Section 23 of the Louisiana Constitution of 1974.

The following are the principal taxpayers for the parish and their 2001 assessed valuation.

	2001 Assessed Valuation	Percent of Total Assessed Valuation
Texas Gas Transmission Corp.	\$4,412,300	5.40%
Manitou Oil Company	3,830,480	4.68%

Total	<u>\$678,116</u>	<u>\$2,519</u>	<u>\$0.00</u>	<u>\$680,635</u>

4. LITIGATION AND CLAIMS

The district is not involved in any litigation at December 31, 2001, nor is it aware of any unasserted claims.

5. SERVICES AGREEMENT

The district entered into a contract with Dennis Butcher whereby the district agreed to pay Mr. Butcher \$1,000 per month for training services, consultation and other technological functions pertaining to the district. Payments under this agreement totaled \$12,000 for 2001 and are included in operating services expenditures.

We have performed the procedures included in the *Louisiana Governmental Audit Guide* and enumerated below, which were agreed upon by the management of the South Clatborne Parish Fire Protection District and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating management's assertions about the South Clatborne Parish Fire Protection District's compliance with certain laws and regulations during the year ended December 31, 2001 included in the accompanying *Louisiana Assertion Questionnaire*. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants. The sufficiency of the procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Public Bid Law

1. Select all expenditures made during each year under examination for materials and supplies exceeding \$15,000, or public works exceeding \$100,000, and determine whether such purchases were made in accordance with LSA-RS 38:2211-2251 (the public bid law).

A review was made of all disbursement journals for the year under examination. That review disclosed no expenditures made during the period under examination for materials and supplies exceeding \$15,000. No expenditures were disclosed for public works exceeding \$100,000.

Code of Ethics for Public Officials and Public Employees

2. Obtain from management a list of the immediate family members of each board member as defined by LSA-RS 42:1501-1504 (the code of ethics), and a list of outside business interests of

all board members and employees, as well as their immediate families.

Management provided us with the required list including the noted information.

3. Obtain from management a listing of all employees paid during the period under examination.

The district has no employees. Consulting and training services are provided on a contractual basis.

4. Determine whether any of the employees included in the listing obtained from management in procedure number 3 above were also included in the listing obtained from management in procedure number 2 above as immediate family members.

As stated above, there are no employees. However, we determined that the contractor did not appear on the list provided by management in number 2 above.

Budgeting

5. Obtain a copy of the legally adopted budgets and all amendments.

Management provided us with a copy of the original budget. There were no amendments to the budget during the year.

6. Trace the budget adoption and amendments to the minute book.

We traced the adoption of the original budget to the minutes of meetings held on October 2, 2000, which indicated that the budget had been adopted by the Board of Commissioners of the South Clatsop County Fire Protection District by voice of all in favor and none opposed.

7. Compare the revenues and expenditures of the final budgets to actual revenues and expenditures to determine if actual revenues or expenditures exceed budgeted amounts by 5% or more.

We compared the revenues and expenditures of the final budgets to actual revenues and expenditures. Actual revenues did not fail to meet budgeted amounts by 5% or more, nor did actual expenditures exceed budgeted amounts by 5% or more.

Accounting and Reporting

8. Randomly select 6 disbursements made during each period under examination and:
- (a) trace payments to supporting documentation as to correct amount and payee;
 - (b) determine if payments were properly coded to the correct fund and general ledger account;
 - (c) determine whether payments received approval from proper authorities.

An examination of six randomly selected disbursements disclosed the following:

- (a) The six selected disbursements were for the proper amount as reflected on supporting documentation and were made to the correct payee.
- (b) All six payments were coded to the correct fund and general ledger account.
- (c) Inspection of canceled checks for each of the six disbursements indicated approval from our board members. Further, the types of disbursements made were included in the district's approved budget.

Meetings

9. Examine evidence indicating that agendas for meetings recorded in the minute book were posted or advertised as required by LSA-RS 42:1-12 (the opening meetings law).

We inquired of management whether agendas for meetings were posted at the meeting place at least twenty-four hours prior to the meeting. Management stated that agendas were posted.

Debt

10. Examine bank deposits for each period under examination and determine whether any such deposits appear to be proceeds of bank loans, bonds, or like indebtedness.

We inspected copies of all deposit slips for each period under examination and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

Advances and Bonuses

11. Examine payroll records and minutes for each year under examination to determine whether any payments have been made to employees which may constitute bonuses, advances, or gifts.

As stated in number 3 above, the district has no paid employees. A reading of the minutes of the board for the year indicated no approval for the payments noted.

We were not engaged to, and did not, perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of the South Claiborne Parish Fire Protection District and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. However, this report is a matter of public record and its distribution is not limited.
